Vinyl-Topped Dance Floor

Sought after due to its quality, appearance, and ease of installation, our vinyl-topped dance floor panels have served a variety of hotels, restaurants, and clubs during all their special events and occasions. The perfect dance floor for “black tie” events to “disco parties”, these dance tiles are available in a several patterns to match the decor of any event.

The vinyl surface allows for a portable dance floor that can sit in any environment. 12" square vinyl tiles are mounted on an exterior-grade, moisture-resistant, 3/4" plywood base. These floors can be used indoors and outdoors.

Border edging is available in two standard widths. Each made from aluminum, the standard trim sits at a 45° angle and the wide trim at an 11° angle that is suitable for ADA requirements.

FEATURES AND BENEFITS

- Vinyl surface can be kept looking good as new using standard floor cleaning methods.
- Available in 4 colors.
- Active connection system prevents panels from pulling apart up, down, or sideways.

Simple to Use

As with our entire line of CPDFC dance floors, our vinyl panel uses a unique, tongue-and-groove connection system which is simply aligned and then screwed in place to form a secure, seamless connection between panels. These panels are designed to create an even, stable dance surface over unprepared or uneven ground indoors and out.

Pole Sections

Our pole sections are the perfect solution for dance floors installed around columns or tent poles. Two pieces put together create one section with an 8" hole. Available in all standard sizes in Wood Grain, White, Black, or Checkerboard.

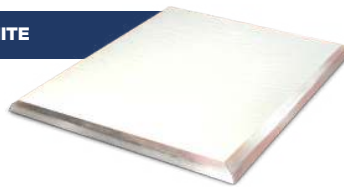

Pole sections also available in composite laminate.
